Reflections Without Comment. A final and impartial glance at that many-sided mirror of everyday life, common talk, or current public opinion, we see reflected this "free raw material," to wit :-

That the town of Morristown came out a few dollars under two thousand in debt.

That some start ought to be made toward getting out of debt and remaining so a few hours.

That there seems to be a willingness to have a new school house at the Corners if it is needed.

That there does seem to be some question about the advisability of building a bridge on the old location. That a large number feel that it is high time to make some move toward a suitable memorial to our

heroic dead. That A. M. Burke is a candidate for Town Clerk and Town Treasurer. That A. A. Niles is a candidate for the office of Town Clerk only.

That if Will Slayton has either, he would very much prefer to have both. That G. A. Cheney is not running for office this year.

That that most excellent accountant, H. M. Rich, is prominently mentioned as a sound and available man for Town Treasurer. That it looks quite favorable for

the re-election of I. N. LeBaron as First Selectman.

That uncertainty hovers about the heads of the other Selectmen; that while they have done well, some change in the membership would not

That if A. A. Niles is elected Clerk the public are assured that he would get his office onto the ground floor as soon as possible. That George Town is very sure to

succeed himself as Constable. That Col. A. O. Gates may be and probably will be re-elected to a position on the School Board. He is estimated as thoroughly filled with the school idea and school interests, from way back. He would accept a reelection and take a pride and a peculiar interest in the work. If any other election is the result, it will undoubtedly be George H. Terrill—not that he is seeking it, but that he is

considered available. That the town has in H. A. Slayton an Auditor who audits, and untangles figures and corrects mistakes that unquestionably appears on the books and would go undetected but

That his decapitation would be like the blotting out of the McKinley tariff act before it was given a fair trial. That he as Superintendent can do no more than the town sees fit to au-

That his removal would probably breed a famine in the Smith family, because, with this onerous official position gone, away goes his annual

salary of ten dollars. That if Mr. Smith is bounced because of his progressive ideas upon the subject of farming. Geo. W. Clark and Judge A. B. Smith are both talked as available timber. Both gentlemen have served in that capac-

ity before now, and acceptably so. That the more interesting contest is to be found in the selection of a Town Clerk, and that this contest will appear more decidedly as between A. A. Niles and A. M.Burke.

That A. M. Burke will be elected-if elected-because there are more who want him, who are wedded to the setaled unchanging idea in politics, who recognize that he has been a faithful servant, who want to give him another year.

That if he is defeated it will be because a larger number, while recogmizing his faithful service in the past, believe that, having enjoyed the emoluments tot office for a generation of men, and being himself a man who has surrounded himself with a large property, has no longer any just claim upon it. It will also be because many who in the election of last year stood faithfully by him with the 'understanding that it was his final request, now have felt that their duty had been previously done so far as he is concerned.

That A. A. Niles will be elected-if elected-because there exists a majority who recognize the fact that he is capable of filling the office of Town capable of filling the office of Town be presented to the donors. Sunday at Universalist Church.

Rev. Dr. Booth returned the last of the week from his two weeks' attendance upon the Harvard University lectures, and was again in his pulpit Sunday morning. He made remarks preliminary to the sermon the circuit of free use. thanking his people for the opportunity he has just enjoyed and expressing its results, in the belief that he comes back to the work with renewed interest and purpose. He had been brought to believe that more and more are engaging in the same work that his church and people are engaged in. He has also been impressed that while mankind, if ever tallen, was never more fallen than now, yet if ever in paradise, never more so than now. In his sermon Dr. Booth took for his text, "He that humbleth himself shall be exalted," Christ pre-the Thayers, a set of silver knives, forks and sented what seems a new thought in spoons from A. R. Cowles and wife, elegant this expression, but we must all be humble first. It was plainly shown that all the great reformers, all the great characters in ancient and modern history, came from humble birth and lowly surroundings. The won-derful things of the world have come from such source. Think of ourselves as we really are, alone, stripped of all | tend town meeting. our environment. How much of what we are or may be is due to ourselves. Humble yourself first and then grow we will be counted for what we really are, rather than what our surroundings may make us appear to be. There is something in doing that which makes it possible to live in that which we leave behind. The humble birth, but great accomplishments in life, of the great Washington, whose birthday we have just celebrated, and of that honored man, a former slave, Frederick Douglass, who has this last week passed from life, were feelingly touched upon by the speaker. Let us strike life with that power that the world wants. First coming to know that we know nothing, and then beginning to know something. The door to the world and this life does not open to us of itself, it demands a strong, vigorous rap. Entering may we do, not for praise, but for the

good of the world. At the conclusion of the morning service, H. M. Rich made announcement of an action that had been taken by the church meeting in regard to the memorial windows recently put into the church by Mrs. Nathan McFarland in memory of her husband and her sister, by George W. Clark in memory of Mrs. Eden Cady, by Dr. Booth in memory of his oldest son, Ernest. The resolutions were read by A. D. Thomas, and their unanimous adoption followed by that expression in a rising vote, as motioned by C. H. Slocum. In the evening Dr. Booth spoke concerning General Booth and the Salvation Army. The resolutions read are as tollows :-

WHEREAS, It has seemed good and fitting to some of our friends yet with us to perpetuate the memory of dear friends that have passed on to the better life, by placing in our church home three beautiful memorial windows with the names of those persons inscribed thereon whose memory they hold sacred, and we as a society sincerely revere; therefore be it

Resolved, By the members of the First Unit versalist Society in special meeting convened for the purpose of manifesting our high ap-preciation of these gifts, to extend our heart ielt thanks to Mrs. Lovinia McFarland for the window in memory of her late husband, Nathau McFarland, and her sister, Mrs. Mary S. Thompson.

Resolved, That the thanks of this Society be extended to our respected townsman, Geo. W. Clark, for the window in memory of Mrs.

Resolved, That the thanks of this Society be extended to our beloved pastor. Rev. Dr. I. P. Booth, for placing in our church the window in memory of his son, Ernest Victor. Resolved, That we as a society will try to imitate the virtues of those whose memories are thus perpetuated, to the end that the faith they so much loved be the better exemplified by us, thereby the betterfitting us for a place in the building of that Spiritual Temple, whose Grand Architect is "Our Father who art in Heaven.

HYMENEAL.

Cowles-Thaver. The Newport Express of Friday last has the following:-

The event of the week was the marriage of Harry E. Cowles and Miss Maud A. Thayer, Wednesday evening, at the home of the bride's parents, Mr. and Mrs. L. E. Thayer, in the presence of the near relatives of the contracting parties. The ceremony was performed by Rev. A. Cooper, D. D. Delwin M. Shepley of Newport acted as best man, and Miss Martie Holdridge of Irasburg was bridesmaid. The presents were numerous and expensive : among them being a handsome silver tea service from china tea-set from Charles C. Harding of Cali fornia, uncle of the bride, a handsome onyx banquet lamp from Wilcox & White Organ Co. of Boston. The happy pair took the 10 40 train, amid showers of rice and best wishes of a host of friends, for Morrisville, where they will make their future home

One of the greatest sufferers of rhenna-tism known in the annals of medicine is John G. Jenks, of Riverside, R. I. He became the victim of rheumatism while in the army, and the disease seems to have given him a taste of all its various es. Physicians and medicinesfailed to give him any relief, until at last he effected his own deliverance from the bonds of pain. THE FRENCH DECREE

Will Have a Very Injurious Effect or American Cattle Shippers.

CHICAGO, Feb. 26 - Speaking of the decree i sued by the French government prohibiting the Importation of American cattle Nelson Morris, the well known packer, sold: "We shipped \$18,000,000 worth of cattle and products to France alone last year, and this great trade is al: destroyed by the order of the French povernment. I knew this was coming some months ago, and with the exception of two or three boat loads not any cattle or product has been sent to France in the last 10 days.

"The effect of the German and Belgium embargo has been to reduce the price of cattle of the classes shipped to these countries by \$10 a head, and this French edict will even more injuriously affect the stock yard . This has been the effect on prices, not withstanding the fact that the supply of cattle has been cut down to two thirds on account of lack of feed. The effect on the product is even greater than the effect on the live cattle trade, espe-cially so far as France is concerned.

"We were shipping 7000 cattle a week and as many or more in addition in the form of the product. France has been taking a great deal of lean cattle for soups, and this class of cattle will be very injuriously affected by the new edict, while as to diressed beef and pork products the results will be even more far-reaching.

German Admirals Wish to Retire.

BERLIN, Feb. 25.—It is stated on good authority that Vice Admiral Hollman and Admiral Von der Geltz have expressed to the emperor their desire to retire and that his majesty's decision in the matter has been deferred until the marine budget is disposed of. The reason for the emperor's dissatisfaction is said to be the insufficient representation of naval matters in the reichstag.
